UH-1 - HUEY MOUNT

Dillon Aero Huey Mount armed with M134D Minigun

Dillon Aero offers three external beam mounts for the Huey family of utility helicopters. The plug and play design permits a variety of installation options, contingent upon aircraft configuration. Each mount consists of two main support arms, cross beam, and one to three vertical post positions. The mounts attach to factory-installed hard points on the belly of the aircraft. Installation is possible within a few minutes.

FEATURES

- 2.25" standard post pintle accepts the Dillon Aero Vertical Arm
- Compatible with a variety of currently fielded weapon systems, including the M134D, M240/MAG58, PKM, and M60
- Brass/link collection system (optional)

The Dillon Aero Huey Mount is currently used by the U.S. military.
