

## **PRODUCT SAFETY ALERT (PSA) M134D Gatling Gun**

### **WARNING**

**Use of any unapproved or non-Dillon Aero parts on the M134D Minigun is extremely dangerous and may cause:**

- Death or Serious Injury to Personnel
- Catastrophic Weapon Malfunction
- Damage to the Host Platform: Vehicle, Aircraft or Boat
- Premature / Irregular Component Wear
- Complete loss of weapon function during operation

### **CRITICAL SAFETY WARNING**

Dillon Aero has become aware that third-party companies are advertising replacement parts, components or upgrade kits for use on Dillon Aero M134D weapon systems.

### **Safety Concern**

The Dillon M134D is engineered, tested and certified to withstand the high cyclic loads, vibration, heat, wear, and mechanical stress associated with this unique weapon system.

Third party parts are not engineered, tested, or qualified IAW our quality assurance processes.

Dillon Aero cannot verify the safety, service life, or performance of components manufactured outside of Dillon Aero's approved supply chain.

Dillon Aero cannot be responsible for operational failure, malfunction, damage, injury or death, caused by use of parts, assemblies, or upgrades not supplied or authorized by Dillon Aero.

### **REQUIRED ACTION**

**Dillon Aero strongly advises all operators and maintainers to comply with the following:**

Maintenance actions: Follow the Dillon Aero Operation & Maintenance (O&M) Manual, only use approved parts per the O&M manual.

Unapproved Third-Party Parts: Immediately remove all third-party or unapproved parts from service.

Replacement parts: Use only Dillon Aero OEM or Dillon Aero-approved parts.

Questions: Contact Dillon Aero TMPD before installing any part not supplied or specifically approved by Dillon Aero.

Contact Dillon Aero TMPD section with questions concerning this PSA.
